PRINCE ALBERT, OCT. 15, 1895

After the little unpleasantness in regard to educational matters which occurred in Prince Albert last summer we had an idea that these matters which disturbed our equanimity at that time were arranged satisfactorily and that our school matters were progressing in a fairly pleasant manner, and we fondly were trusting that anything in the way of further trouble was in the very distant future. But, alas, these fancied hopes of ours are knocked rudely aside and we are again doomed to disappointment.

Through some present day educational technicalities, whether fancied or real, we are unable to say, our fellow-townsman, Mr. J. F. A. Stull, has been deprived of his situation as teacher in our schools. Whatever may be the motive for this summary proceedings we are sure that the educational interests of Prince Albert will gain very little thereby. Mr. Stull has now for some years been identified with the Prince Albert schools, and with very few exceptions indeed, has given universal satisfaction both to parents and pupils, and in such a case there ought to be something very valid adduced before such a step was taken as to deprive a long servant of the people of his office, and in this case we fail to see any reason given that would satisfactorily account for such a drastic measure. As far as we can understand the trouble arises through the neglect, wittingly or unwittingly of adhering strictly to the rules laid down in the mode of conducting school examinations. There is no doubt room for censure if a teacher in a flagrant and wilful manner disobeys these rules; but we do think that for an offence of this kind a solemn warning would be the proper mode for an offence of this kind, and then if the rules were further violated it was time enough for depriving the offender of his position. But so far as we know this has not been done; but all we know is that Mr. Stull is no longer permitted to teach in our schools. We think it a pity that our school authorities feel themselves obliged to resort to this measure, and we cannot help wondering if our educational laws are the best after all, where one or two men have the power to set up whom they will and cast down whom they will. We may be wrong, but we cannot help thinking that the parents of the children ought to have some small thing to say in the matter of their children's education. But be that as it may we, and many others in Prince Albert, feel very sorry indeed that it has been found necessary to deprive Mr. Stull of his office and Prince Albert of an old and efficient servant.

The Rev. Principal Grant, not satisfied with making himself ridiculous by his unintelligible jargon set forth in his letters to the Toronto Globe on the Manitoba school question, goes a step farther and lays on a fulsome adulation on the French Canadians "ad nauseam" in a lecture at Kingston lately on Canadian Development. He says, "I do not blame French Canadians for their French sympathies. They have with their blood proved their loyalty to Canada. We cannot force them to leave us to us. A number of people think French Canadians are not as good as we are. They have, however, given us our most famous sculptor; our two best painters, our best historian in Frechette; and our greatest poet, and in public life I would like to ask has Ontario given six such public men of a higher type as Cartier, Dorion, Masson, Anger, Jolly and Laurier. I admire Angers for giving up his position when right dictated it. The mass of French Canadians are on the whole a fine class of people." This peroration is refreshing from the lips of a Presbyterian Divine. It is a pity that this glorifier of the French race was not in this country in 1869-70 or in 1885 during the time when Riel, Lestache and Richot bore away. He would have had the opportunity of adding the names of these worthies to the list of the famous men whom he admires so much, and who ought to have been included in his category of honorable citizens. Had he the good

fortune to be confined in a cellar with his hands tied behind his back as was done to many bitter men, he would then have had a better opportunity of studying the tender mercies of this "fine class of people."

The Moscow Gazette, a Russian paper, in a late issue characterizes the British army as a "contemptible affair; an offensive legion inferior in number to that which Bulgaria could mobilize within a month." The Russians have evidently forgotten the heights of Alma, Inkermann, etc., where this so called "contemptible affair" made three times their number of Russians either bite the dust or search for a convenient hole to hide themselves into. Both France and Russia are getting a little too cheeky just now and are aching for what they will get undoubtedly before long if they do not mend their manners and that will be as undicking equal to what they have often got before from England.

Recent statistics show that two-thirds of all the letters carried by the postal service of the world are written, sent to, and read by English speaking people. This goes to show that the Anglo-Saxon race are the most intelligent people on the face of the globe and that their presence is felt everywhere throughout the world, a remarkable proof that they are the people destined to fill all the corners of the earth according to the promises made to our forefathers in Holy Writ.

The experimental electric locomotive on the Baltimore & Ohio railroad has been driven at the rate of sixty miles an hour. In its case the experiment can fairly be counted a success.

It appears that there are a host of Englishmen ready to enter upon another contest for the America's cup. The harder the task of winning the trophy is made the more determined are the bulldogs to get hold of it.

In the last race across the Atlantic the M-jeet passed the Paris and the Campania left the St. Louis away behind. The United States people may be able to build swifter yachts, but when it comes to the real business of quick ocean transport they are not in the race with the ships that sail under the Union Jack.

In Toronto a man has been sent to the penitentiary for four years for stealing a bicycle, and another man for five years for setting fire to his business premises. A comparison of these sentences suggests that bicycling may have some votaries on the Bench.

Japan has sixty thousand troops in Formosa, and they are reported to be having a hard time of it subduing the islanders. The Chinese would appear to be able to fight when the paralyzing hand of the Government they should fight for is not laid upon them.

The Northwest Legislative assembly adopted a resolution favoring a plebiscite on the question of suppressing the liquor traffic. Political prohibitionists always appear to think a plebiscite a better thing than a prohibition law.

The demand of the Swedes of Manitoba for the provision of special instruction in their own language in the public schools might have been instigated by the opponents of separate schools. It can be used to show that disturbing lengths the demands for discriminatory school privileges may be carried.

When threatened by warships the Chinese Government yielded to Great Britain's demands and the officials responsible for the recent massacres of missionaries will be punished. In dealing with China a good plan would be to be vigorous first and diplomatic afterwards. The Celestial statesmen do not appear to be capable of appreciating any thing less argumentative than the muzzle of a gunboat's breechloaders.

A movement has been organized in London in favor of a reform of English fiscal policy, which has long been thought as unalterable as the laws of the Medes and Persians. The object is to promote trade in all parts of the British Empire upon mutually advantageous terms and upon a preferential basis, preference being accorded to British and colonial goods over other goods which are not of British origin. It looks as if preferential trade within the bounds of the Empire would become a question of practical politics sooner than some people think.

We have just received a new price list from Jas. McMillan & Co., Inc., 200-212 First Ave. North, Minn., the largest hide and fur dealers in the Northwest, and it can be referred to at this office at any time. Their advertisement appears regularly in THE TIMES.

Colorless, Emaciated, Helpless
A Complete Cure by HOOD'S
SARSAPARILLA.

This is from Mr. D. M. Jordan, a retired farmer, and one of the most respected citizens of Oregon, Co., N. Y.

"Former years and I had an attack of the gravel, and have since been troubled with my Liver and Kidneys gradually growing worse. There were times I got down so far that I could scarcely walk. I looked more like a corpse than a living being. I had no appetite and for five weeks I ate nothing but gruel. I was weak and had no strength, even a moderate staircase. Hood's Sarsaparilla was recommended and I took it, and by the time I had taken the first bottle I felt that first letter, suffered less, the indigestion of the blood, etc., was gone, and I began to feel stronger. After I had taken three bottles I could eat anything without having any trouble. I got so hungry that I ate up to 500 times a day. I have now fully recovered, thanks to

Hood's Sarsaparilla
I feel well and am well. All who know me marvel to see me so well." D. M. JORDAN.HOOD'S PILLS are the best after-dinner Pill,

CHIT-CHAT LOCALS.

Mr. R. Beatty, of Melfort district, spent a few days in town this week.

A social takes place at the St. Leo schoolhouse on the evening of Friday, 25th inst.

Major Bennett, of the S. A., will come in from Winnipeg Saturday and will remain here till the following Thursday.

A conversation in aid of the funds of the Victoria Hospital will take place at the town Hall on Friday evening next.

P. J. Flanagan, of the Prince Albert Hotel, is having built a fine sidewalk in front of the premises of his hotel. It is about ten feet wide, and is a big improvement on the old one.

At the Prince Albert Hotel—R. Hoy, T. Young, W. Gordon, Boucher, Geo. Glaister, Red Deer Hill; Victor Courier, wife and man, Pomeroy; P. Fisher, M. Hamilton, Carrot River.

It is proposed to entertain Mr. Speaker Bettis Wednesday evening at the Prince Albert Hotel. We are quite sure there will be a grand rally of his friends. Tickets at the Post Office and G. W. Baker's store.

At the Queen's—W. S. Burns, W. Fielding, Winnipeg; A. E. Wild, R. R. King, R. Beatty, Melfort; M. H. Leishman, To, onto; J. E. Williams, Kingston; T. P. Wadsworth, Rev. Thos. Clark, F. Love, Battleford.

We are pleased to know that Mr. Pitt, who has been lying seriously ill at the Queen's Hotel for the past three weeks, is now in a fair way of recovery and will be removed to the residence of his son-in-law (Mr. S. Hobbs) in a day or so.

Mr. and Mrs. Peter Campbell of the South Branch, have the sympathy of the entire community in the loss by death of their son Lorne, who succumbed yesterday to an attack of inflammation. Lorne was a bright and promising boy of fourteen years, and was highly thought of by all who knew him.

At the Royal—A. St. Louis, St. Louis de Langevin; A. W. Richardson, P. J. Callon, Moose Jaw; J. McGee, Saskatoon; J. S. Letellier, H. Vickers, Forks River; J. Anderson, Lindsay; T. Corrigan, St. Catharines; T. Clark, G. H. Kenny, Winnipeg; A. Munro, Whitewood; D. McIntosh, Regina; Mrs. R. MacLean, Brandon.

Office supplies of all kinds just arrived at Geo. W. Baker's.

Mr. Wadsworth, general inspector of Indian agencies for Manitoba and the Territories, came in on Sunday morning from Battleford, having driven over the trail in company with Rev. Mr. Clark. It is some eighteen months since Mr. Wadsworth was here, and he finds our town has made steady progress.

A meeting of the agricultural society has been called for Friday next in the town hall at 2 p.m. The object of the meeting is to secure a plot of land for the purpose of holding exhibitions in and which can also be used as a race or speed track and for other purposes. An offer of a good site has been made at a fair price and on reasonable terms, and which the society should close with at once.

For the convenience of travellers and the general public the publishers of Stov's Pocket Directory have issued a handy supplement embodying all changes on the C. P. R. and Great Northern taking effect on the 13th inst. It is the same as the monthly edition, into which it can be easily inserted. The publishers deserve credit for issuing this supplement which we understand is delivered to all subscribers gratis and can be had on all trains and at bookstores.

F. C. Baker is selling Ladies' Jacs. etc. worth \$5 for \$3.

The entertainment to be given by the Hospital Aid Society on Friday evening next promises a very enjoyable evening for those who attend. The programme will consist of selections both vocal and instrumental by a number of our well known amateurs. The citizens band have generously given their services for the occasion. There will be an intermission between the first and second parts of the programme during which refreshments will be on sale in the Council Chamber. The ladies of the aid hope that the citizens will give this entertainment their generous patronage as the object is a charitable one.

The tenth annual exhibition of the Central Saskatchewan Agricultural Society was held in Saskatoon on Oct. 3rd and 4th. The weather was all that could be desired and the exhibition was as usual a great success. The C. P. R. round house was used in which to display field and garden produce and ladies work. Grain exhibition was of fine quality and stock of all kinds showed a decided improvement over the past. Messrs. Jos. Kidd and W. White of Prince Albert placed the tickets in grain and horses very satisfactorily and Mr. Stell, of Guelph, Ont., placed the cattle award also giving the best of satisfaction.

Don't go around with cold fingers when you can get gloves so cheap, at F. C. Baker's.

Office supplies of all kinds just arrived at Geo. W. Baker's.

Mr. Wadsworth, general inspector of Indian agencies for Manitoba and the Territories, came in on Sunday morning from Battleford, having driven over the trail in company with Rev. Mr. Clark. It is some eighteen months since Mr. Wadsworth was here, and he finds our town has made steady progress.

A meeting of the agricultural society has been called for Friday next in the town hall at 2 p.m. The object of the meeting is to secure a plot of land for the purpose of holding exhibitions in and which can also be used as a race or speed track and for other purposes. An offer of a good site has been made at a fair price and on reasonable terms, and which the society should close with at once.

For the convenience of travellers and the general public the publishers of Stov's Pocket Directory have issued a handy supplement embodying all changes on the C. P. R. and Great Northern taking effect on the 13th inst. It is the same as the monthly edition, into which it can be easily inserted. The publishers deserve credit for issuing this supplement which we understand is delivered to all subscribers gratis and can be had on all trains and at bookstores.

F. C. Baker is selling Ladies' Jacs. etc. worth \$5 for \$3.

The entertainment to be given by the Hospital Aid Society on Friday evening next promises a very enjoyable evening for those who attend. The programme will consist of selections both vocal and instrumental by a number of our well known amateurs. The citizens band have generously given their services for the occasion. There will be an intermission between the first and second parts of the programme during which refreshments will be on sale in the Council Chamber. The ladies of the aid hope that the citizens will give this entertainment their generous patronage as the object is a charitable one.

The tenth annual exhibition of the Central Saskatchewan Agricultural Society was held in Saskatoon on Oct. 3rd and 4th. The weather was all that could be desired and the exhibition was as usual a great success. The C. P. R. round house was used in which to display field and garden produce and ladies work. Grain exhibition was of fine quality and stock of all kinds showed a decided improvement over the past. Messrs. Jos. Kidd and W. White of Prince Albert placed the tickets in grain and horses very satisfactorily and Mr. Stell, of Guelph, Ont., placed the cattle award also giving the best of satisfaction.

Don't go around with cold fingers when you can get gloves so cheap, at F. C. Baker's.

Notice is hereby given that the partnership between existing and doing business at the Royal—A. St. Louis, St. Louis de Langevin, W. G. Glaister, Red Deer Hill; Victor Courier, wife and man, Pomeroy; P. Fisher, M. Hamilton, Carrot River.

Rev. T. Clarke, of Battleford, arrived in town Sunday morning having driven down from the ancient capital. The rev. gentlemen is here on Church mission work, and is also endeavoring to secure pupils for the Industrial School from the different Indian agencies in this locality. Since his last visit here the rev. gentlemen paid a visit to Montreal, where a successful operation was performed for the benefit of his eye sight, which was failing him. He left yesterday morning for Fort la Corne and other points to On information given him, Const. Wettest preferred a charge against J. Connolly for keeping a disorderly house in the east end. The case was tried before Mayor Davis and J. Courtney J. P., Wednesday evening last. Several witnesses were examined whose evidence went to prove the character of the house. The magistrates fined Connolly \$25 and costs or two months at the barracks. The case we understand, will be appealed. The constable withdrew a charge against two young girls as being inmates, and they were discharged on promise of returning to their own homes.

The adjourned annual meeting of the Saskatchewan Curling Club took place at Mr. McPhail's office Monday afternoon, with a fair attendance of members present. The minutes of last meeting being read and approved the auditors presented their report, which showed the club to have a small balance on hand after all liabilities had been settled. The election of officers then took place with the following results:—A. A. B. Sproat, president; J. E. Young, vice-president; J. D. Hanafin, sec-treas.; Executive committee—Messrs. Campbell, Nelson, Russell, Borthwick and Gunn. Representative members, Messrs. McPhail and Bain, Patron and patroness—J. F. Bettis, M.L.A., and Mrs. Bettis. The arranging for ice, etc., was left in the hands of the committee, and after some other business had been done the club adjourned to call of president.

It is evident from the appearance of the last number of the Colonist that the mantle of the deceased publisher has fallen upon worthy shoulders. As a specimen of periodical literature this number of the Colonist would be a most creditable production for a much older and more densely populated country than Manitoba, and when we consider that every item contained in it is thoroughly and exclusively local, in design as well as in execution, we regard it as a matter of congratulation that our young country is able to show so conclusively that there is nothing wild or wooly about this part of the west, at least. The number is especially concerned with the Winnipeg district, and besides very full and interesting descriptive matter it contains an excellent map of the country with in a radius of 20 miles around the city. The object of the map is to show in a graphic manner the large amount of vacant land within so short a distance of the prairie metropolis, and this is effectively done by depicting these vacant lands in red. The anomaly of so much vacant land within a walk of the largest city in western Canada is discussed; and remedies for this undesirable state of affairs suggested. Altogether it is certain that the attention of newcomers cannot fail to be attracted to this much neglected district. The number is devoted to Northwestern matters in general. Indeed, the most striking characteristic of the magazine is that it is, in every sense of the word, thoroughly and worthily representative of Western Canada.

Electrical Stamps.
The man who introduced the first capping machine in the New York general post office is employed there now, but he has lived to see his machine surpassed. His invention would cancel four thousand stamps in an hour, or less than the average number for a skilled man working by hand. Three or four other machines, each a little faster than its predecessor, were introduced in turn and discarded. One was invented that far exceeded the speed of the swiftest hand worker, and it was used until the discovery was made that it sometimes cut through envelopes and damaged their contents. Then the present machine, which cancels forty-eight thousand stamps an hour, was introduced. The five machines in use at the general post office are run by electricity.

Some Moose on a Farm.

About a year ago a Frenchman named Bourgois, who lived on a farm on the east branch of the Penobscot, found two baby moose wandering helpless in the woods and took them home. He nursed them tenderly and taught them various tricks, and they thrived and became very tame. The young moose were exhibited at the Bangor fair last fall, and since then they have lived contentedly with the cattle on the farm. Sometimes they go into the woods in quest of certain delicacies of the forest and are away for days at a time, but they always come back to the farm. Every hunter on the east branch knows the young moose by sight and no one ever thinks of shooting at them.

The patience of love never wears.
It is provocation proof.

It doesn't break the heart of love to have the clothes line break.

Without the help of human love divine love could never have been made known on earth.

Love does not boast of the battles it has fought, nor scratch its scars to make them look bigger.

Love never keeps her seat and says nothing when the conductor happens to miss her in the street car.

Love never picks out a two-cent piece from a purse full of gold coins to put in the collection basket.

True love that is right itself will not spend much of its time in looking for black spots on other people.

You may turn the pockets of love wrong side out at any minute, and you will never find a dollar of the devil's money in them.

Love that is love, is not venerated or grained timber, but is solid oak clear through, and is never one bit afraid of the auge or buzz-saw.—Ram's Horn.

LITTLE BOOKS.—Cotton Mather said that since he had given away many little books God had given to him many great books. Great books have their value, but little books are far more important for common use; and while students may need the great books, the people need the little ones. Busy men and women have no time for long stories. All the books of the Bible as written, were little books. Thousands of people who cannot read large volumes would gladly read brief pointed tracts and pamphlets.

Persons interested in scattering "small books on great subjects," will do well to examine the different numbers of the Anti-Intellectual Library, published by H. L. Hastings, 47 Cornhill, Boston. Most of them are 5 or 10 cents pamphlets, in readable type, but so packed with facts that they contain as much information as one would often find in a book costing a dollar. The circulation of some of these publications has been enormous, nearly sixty tons of a single one of these little tracts having been printed. We do not often see "third million" on the title of any publication, but persons who are curious can find it by sending five cents to H. L. Hastings, Boston Mass., for a copy of the pamphlet "Will the Old Book Stand?" or by sending twenty five cents for an assorted package of Anti-Intellectual tracts.

Another fine line of Blank Books, Envelopes, Stationery, etc. just arrived from Montreal for Geo. W. Baker. He buys direct from the factory so he can see them cheapest for cash.

Pipes, Cigars and Cigarettes, imported and domestic at G. W. Baker's.

Every business man ought to read "Dol and Soot," a money making book by Nath C. Fowler, Jr., the leading expert on business and advertising. 18 chapters illustrated with 100 plates, presenting every style of effective advertising, with examples of reading notices, circulars and headlines. It tells the plain truth about advertising and exposes ineffective methods. Any reader of *The Times* who will send check, postal note or postage stamp to the value of twenty five cents to the Trade Company, Boston, Mass. will receive the book by prepaid mail.

For some time past certain dealers have been selling inferior brands of tobacco when "T & B" is asked for, thus not only trading on the reputation of the manufacturers but also injuring the sale of the article. The Geo. E. Tuckett & Son Co., of Hamilton, have taken the matter in hand and intend prosecuting the offenders. Smokers should be careful to see the "T & B" stamp on each plug as to gain extra profit, unscrupulous dealers tear the tag of other brands and say it is "T & B" and "just a good.

The "Rural Canadian" continues to be the most practical paper for the all round farmer to read. It has made a decided "hit" in securing the sole right for Canada of "The Farmer's New Guide," a well bound and handsomely illustrated volume of 175 pp., published at \$2.50 and not sold at a lower price except in connection with the "Rural." Every farmer should have the Guide and "Rural." Both sent to any address on receipt of \$2.50.

The October number of the Delineator is called the autumn number and contains a choice and varied selection of timely articles. It gives an authorative exposition of autumn styles, illustrating a variety of novel, artistic and beautiful garments. Especially complete and valuable is its discussion of mourning. Mrs. Roger A. Pryor's paper on etiquette of Grief's outward showing being supplemented by an instructive article giving patterns and designs for mourning attire. Every mother with the responsibilities of a household should study what is said about fitting out a family, the season's costume needs of herself and her little ones being fully treated. The progress of co-education in Great Britain is further explained by Amy Rayson. Bookbinding as an occupation for women is entertainingly described by Evelyn Bunto Nornhoff. Lucia M. Robbins describes a new and amusing form of entertainment. The re-opening of the schools is remembered in an account of things suitable for the children's luncheon basket, while A. B. Longstreet contributes a practical exposition of how to carve. The return of cooler weather makes timely the admirably illustrated article on draperies. The papers on the kindergarten by Sara Miller Kirby, on floral work for October by A. M. Stuart and the designs for burns work by Harriet Keith Fobes fully sustain the interest felt in those topics. Around the tea table has its usual admirable variety and the newest books are sympathetically reviewed. Further contributions are given in knitting, netting, tatting, etc. Address communications to the Delineator Publishing Co. Ltd., 33 Richmond street, west, Toronto, Ont. Subscription price \$1 per year or 15c per single copy.

We have just received a new price list from Jas. McMillan & Co., Inc., 200-212 First Ave. North, Minn., the largest hide and fur dealers in the Northwest, and it can be referred to at this office at any time. Their advertisement appears regularly in *THE TIMES*.

The greatest papers in Great Britain and the United States freely acknowledge the wonderful merit of the *Family Herald and Weekly Star*, Montreal. The *Family Herald* is a great newspaper and a great family paper, but it is more than that, it is one of the greatest authorities in the world in cheese, butter, general dairying, and general farming. How a progressive, up-to-date farmer can do without the *Family Herald and Weekly Star* of Montreal is hard to understand.

The Manitoba Free Press in speaking of the Uxbridge Piano says: They are genuine works of art, and reflect the highest credit upon the firm which has produced them. The old style of upright piano is thrown into the shade. The Uxbridge Piano has a continuous book rack which will be appreciated in the playing of duets; sitting down to the piano the performer touches a lever and the keyboard is uncovered, and the hinges of the lid turn out of sight, and the instrument presents the same artistic appearance when open as when shut. The Organs manufactured by the Uxbridge company have been in use for over twenty years, and require no special description, they are so well-known and liked in the homes of the thousands over the whole world. However, the company is manufacturing a six Oct. Organ in Piano case which is having a wonderful sale. The Pianos made by the Uxbridge Piano Co. are a credit to Canadian enterprise, being equal in tone, durability and finish to the best American.

The Mail and Empire,

which is now acknowledged to be the great newspaper of

Canada, we are able to furnish our subscribers with "The

Weekly Mail and Empire" at less than the price of the

white paper on which it is printed

We give "The Weekly Mail and Empire" and our own paper for \$1.40 a year.

We have also arranged for special rates on

FARM and FIRESIDE

which is noted for its Agricultural talks, Farmers' Club, etc., also for the

Woman's Kingdom, edited by Kit. It is a great

paper.

W. W. WINSLOW'S SOOTHING SYRUP

is a well known and popular remedy for children.

It is a safe and effective remedy.
